

Spot Characters 3 :

Leaves withering red

- Most recorded instances - leaves wither yellow or brown
- More commonly associated with plants from temperate climates (e.g. Maple Trees) and the changing of seasons, but it is probably more widespread in tropical species than what has been recorded presently
- Dependent on observations made in the field, hence current list is not exhaustive

Terminalia catappa (Sea Almond)

Examples of plants recorded from Singapore:

| Taxon that are recorded from Singapore | |
|--|---|
| Family | Genus |
| Anacardiaceae | <i>Parishia</i> |
| Bonnetiaceae | <i>Ploiarium</i> |
| Centroplacaceae (Celastraceae) | <i>Bhesa</i> (in part) |
| Connaraceae | Some taxa, e.g. <i>Rourea</i> |
| Diptercarpaceae | Some taxa, e.g. <i>Dipeterocarpus</i> (in part), <i>Dryobalanops</i> (in part), <i>Shorea</i> (in part) |
| Elaeocarpaceae | <i>Elaeocarpus</i> (in part) |
| Lauraceae | Some taxa, e.g. <i>Litsea</i> (in part) |
| Leguminosae | Some taxa, e.g. <i>Archidendron</i> (in part) |
| Melastomataceae | Some taxa, e.g. <i>Memecylon</i> (in part), <i>Pternandra</i> (in part) |
| Myrtaceae | Some taxa, e.g. <i>Syzygium</i> (in part) |
| Pentaphylacaceae | Some taxa, e.g. <i>Eurya</i> (in part) |
| Phyllanthaceae | <i>Cleistanthus</i> |
| Salicaceae | <i>Flacourtia</i> |
| Sapindaceae | Some taxa, e.g. <i>Guioa</i> , <i>Pometia pinnata</i> |

Sandoricum koetjape (Sentul)

Examples of plants that exist only as cultivated specimens in Singapore:

| Taxon that exist only as cultivated specimens in Singapore | |
|--|---|
| *Listing is non exhaustive | |
| Family | Genus |
| Apocynaceae | <i>Kopsia arborea</i> |
| Lythraceae | <i>Lagerstroemia</i> |
| Malvaceae | <i>Pterygota</i> |
| Meliaceae | <i>Sandoricum</i> |
| Onagraceae | <i>Ludwigia octovalvis</i> |
| Myrtaceae | Some taxa, e.g. <i>Syzygium</i> (in part), e.g. <i>Syzygium myrtifolium</i> |
| Sapindaceae (Including Aceraceae) | <i>Acer</i> |

Elaeocarpus grandiflorus (Mala)

Examples of plants that exist only as cultivated specimens in Singapore:

Lagerstroemia speciosa (Rose of India)
